

Specialties

Shell Advance Gear

Shell Advance Gear is a lightweight synthetic technology based motorcycle gear oil specifically formulated for motorcycle gearboxes. It gives maximum power transfer through the gearbox with smooth gearshift and clutch performance. The formulation also delivers superior protection when hot, and easy start when cold. It also gives very good antioxidant and anticorrosion performances for longer oil life and longer gear life.

Shell Advance Fork

Shell Advance Fork range is carefully designed to meet the varying viscosity requirements of motorcycle forks. The formulation gives consistent fork operation over wide temperature range. All Advance Fork fluids can be mixed in whatever combination to fine tune fork sensitivity. They have long life and the additives used control seal swell.

Shell Advance Chain Ultra

Shell Advance Chain Ultra has been specifically developed to assure the highest lubrication performance of motorcycle chains, both standard one and the O-rings chain.

Shell Advance Filter

A special oil for treatment of motorcycle air induction filters made of plastic foams. It is a specially developed oil for pre-treatment of the plastic foam or cotton wadding filters. It is quick to use and penetrate easily into the filter while forming a thin, sticky film on the filter active surface giving high protection against dust related abrasive wear.

PRODUCT PORTFOLIO

WHAT WE LEARN ON THE TRACK, WE PUT IN YOUR ENGINE.

DESIGNED TO MEET CHALLENGES

2T

Shell Advance Ultra 2

This is the best Shell 2-stroke motorcycle oil you can buy. For riders of high-powered performance bikes who demand the ultimate in performance, protection, cleanliness and low smoke under all conditions. A premium fully synthetic oil, exceeding highest international specifications and motorcycle manufacturers' requirements.

Shell Advance VSX 2

For riders of high-powered bikes who demand superior performance, protection, cleanliness and low smoke whatever the road and traffic conditions. A premium oil based on synthetic technology, exceeding highest international specifications and motorcycle manufacturers' requirements.

Shell Advance SX 2

For riders who want very good engine protection and reliability coupled with cleanliness and low exhaust emissions. Suitable for modern and classic bikes that are used every day. A premium mineral oil, exceeding international specifications.

Shell Advance Scooter 2

For scooter riders who demand high performance coupled with excellent engine protection and cleanliness in 2-stroke scooters. A semi-synthetic premium oil, exceeding highest international specifications and scooter manufacturers' requirements.

Shell Advance Racing M

Shell Advance Racing M is a Castor based racing oil with synthetic components, especially designed for 2-stroke karts. It is also recommended for 4-stroke speedway motorcycles and other engines burning alcohol / methanol fuel mixtures. It provides ultimate engine protection and improved acceleration and power output.

Shell Advance Racing X 2

Shell Advance Racing X 2T is a unique, fully synthetic lubricant for ultimate engine protection and improved performance in 2-stroke racing motorcycle engines and karts with manual gearboxes. Shell Advance Racing X 2T is a race proven technology (Grand Prix, off-road world championships and kart sports) specifically designed for the most extreme race conditions and it is not recommended for day to day on-road usage.

Shell Snowmobile 2

Shell Advance Snowmobile 2 is a synthetic technology based lubricant for excellent engine protection and cleanliness in 2-stroke snowmobile engines that guarantees superior control against exhaust system blocking and minimises exhaust smoke.

Shell Advance VSX 4

For bikers who need superior performance and an oil that protects as well as keeps their bike engine clean in all types of road conditions and provides long-term reliability. A premium oil based on synthetic technology, exceeding highest international specifications and motorcycle manufacturers' requirements.

Shell Advance SX 4

For riders who depend on their bikes for day-to-day use and who seek performance, very good protection, reliability and cleanliness for their modern, touring, seasoned or classic bikes. A premium mineral oil that exceeds international specifications.
