

Shell in Malaysia

A PARTNER IN THIS NATION'S GROWTH

Shell Malaysia is one of over 300 Shell companies in more than 145 countries around the world. Shell Malaysia has a 117-year history and presence in Malaysia, and is an integrated energy company comprising wholly owned, joint venture and public-listed companies. Shell Malaysia engages in three core business sectors, namely Exploration and Production, Downstream and Gas and Power; and has several global, specialised service support hubs located in the country. The Company employs over 5,000 diverse and talented staff nationwide. Shell has invested over RM70 billion in Malaysia over the past four decades, and has a current investment commitment of RM12 billion from 2003 to 2007. The Company also provides material sponsorship and resources in the areas of environmental conservation and social development. Shell Malaysia aspires to be the "Top Performer Of First Choice" by operating its businesses efficiently, responsibly and profitably.

Shell Malaysia aims to maintain a health, safety and environmental performance it can be proud of; to earn the confidence and trust of customers, shareholders and society; to be a good neighbour and to contribute to sustainable development. Shell seeks to sustain its long-term presence in Malaysia: pursuing high standards of product quality and service performance; striving to meet the expectations of stakeholders, and contributing to the nation's economic growth and progress.

Your Company is the only public listed company in Shell Malaysia. Your Company was formed in 1960 as a public listed company and currently has 49% public participation. It operates with state-of-the-art technology and is the key petroleum products supplier to Shell's Downstream' businesses in Malaysia. The Company's oil refinery at Port Dickson produces a comprehensive range of petroleum products, over 80% of which are consumed within Malaysia.

In 1999 your Company completed its RM1.4 billion investment in Malaysia's first Long Residue Catalytic Cracking Unit (LRCCU), thereby transforming what was a medium-sized, relatively simple refinery into a world class and modern complex refinery.

The LRCCU, which represents an important commitment to your company's future, has quadrupled the refinery's Liquefied Petroleum Gas (LPG) production and doubled its motor gasoline production. It has also enabled the refinery to manufacture propylene for the first time. Propylene is a highly valued feedstock for the petrochemical industry.

While striving for maximum return to our shareholders, your Company also believes in giving equal attention to caring for our environment and fulfilling our corporate social responsibility (CSR) by contributing to social development in our community. We actively encourage and support diverse wealth creation in the community, the development of new skills and expertise and the transfer of new technologies and best business practices to Malaysia.

Through our sustainable development policy, your Company integrates the economic, environmental and societal aspects of our business in order to achieve sustained financial success, safeguard our environment and develop our reputation as a partner and provider of first choice for a wide range of audiences. Our audiences include our shareholders, customers, employees and those with whom we do business, as well as society and the future generations - all of whom expect us to engage with them, listen to them and evolve with them to meet their changing expectations.

We aspire to be the “Top Performing and Most Admired Refinery in Asia”, by operating our businesses efficiently, responsibly and profitably. As we aim for high standards of performance, we also aspire to establish a long-term presence among the communities we operate in. As such, we are committed to helping our stakeholders improve their quality of life, whilst simultaneously contributing to Malaysia’s advancement and its Vision 2020 goals.

Your Company takes pride in being a responsible and trusted leader of the business community and a caring and thoughtful member of society.
